EVENING TUITION.

MONS. S. CHARTON respectfully informs his friends and pupils, that it is his intention of opening a course of French conversation and French composition, under such arrangement as may suit the attendance of those gentlemen who may be pleased to honor him with their patronage. He would also be pleased to see those gentlemen who applied to him during the summer, and such others as may be desirous of commencing the study with him, as he intends opening a class for beginners so soon as six scholars shall have been engaged.

The Chartonian System, otherwise the system of nature, under which his pupils have so much profited, proving to conviction its superiority over all other methods of teaching the French language, wants but to be known to be appreciated.

GREATEST WONDER OF THE AGE.

PATENT GALVANIC RING, AND MAGNETIC FLUID.—These wonderful Rings, and the Galvanic Fluid, have created a great senaction throughout Europe, and are attracting crowde to see them, both in New York and Boston. They care with astonishing rapidity rheumatism, gout, tic-doloreux, fits, cramp, sick headache, indigestion, paralysis, stiff joints, general debility, deficiency of nervous energy, and all nervous disorders. They produce all the beneficial results of the ordinary galvanic battery, or electric and magnetic machines, without the injurious shocks which slways accompany their application. The secret of preparing the Ring was discovered by Professor Harmance Christic, of London, in October last, and they have been recently introduced into this country by Dr. A. Christic, who warns the American public, from the beginning, to beware of spurious imitations. To guard against fraud, he will appoint but one agency in each of the cities of the United States.

with an offer to supply Key West.

Proposals for commencing said routes at any other United States port on the Atlantic, than as above named, will be considered.

It is intended, out of the foregoing list of routes, to make selection of one to Europe, and one to the Gulf of Mexico and the Pacific, as may best be determined, after proposals for service on all the routes are submitted—not relinquishing, however, the right to place a greater number in operation, if it shall be deemed expedient to do so.

The proposals should specify the number of trips to be performed during the year, and as near as may be, the day of the month on which the vessel conveying the mail is to depart from the port at each end of the route. The department contemplates on route No. 1, a semi-monthly conveyance for eight months of the year, and a monthly conveyance for the residue of the year; on No. 9, a like frequent conveyance; and on No. 3, the same; on No. 4, a monthly conveyance; on No. 5, as frequent a transportation as two or three times a month; on No. 6, a trip once in two months; and on No. 7, twice or three times a month.
